CEYLINCO LIFE®

A Relationship For Life™

CEYLINCO LIFE®

A Relationship For Life™

When a baby is born, imagine the hopes and dreams that fill a father's mind ? These emotions aren't felt by one father alone but by the millions of fathers around the world.

Ceylinco Life Ran Daru is the means by which every loving father can fulfil his hopes and dreams for his precious child.

If, unexpectedly, you aren't there for your child anymore, your plans for your child's future development will still be a reality with Ceylinco Life Ran Daru, while the shadow of your love watches over your precious child.

This is how Ceylinco Life Ran Daru will benefit your child:

Ran Daru Basic Education Fund

If you're suddenly no longer there for your child, he or she will receive an immediate fund from Ceylinco Life Ran Daru which is five times the value of the policy, so that your child's education will not be disrupted. This money will go towards your child's basic education and for the development of his or her talents.

Ran Daru Higher Education Fund

When your child turns 18, he or she will be paid a minimum of 5 times the value of the policy for higher education from the Ran Daru Higher Education Fund. Your child may utilise this money for any of the following occasions:

1. To gain admission to university, local or abroad
2. For professional studies
3. To invest in his/her own business. In other words, your child can use this money to plan out his or her entire future.

If by accident, you are tragically taken away from your precious child forever, the benefits listed above will automatically be doubled.

Given below is a chart showing you how your child will receive Ran Daru benefits.

Monthly Income Protection Benefits

If you become totally or permanently disabled as a result of sickness or an accident, you will receive ten times the basic policy value in 120 monthly instalments, to pay for your child's education. And all future premiums will be waived off.

If, by accident, you are partially disabled, you will receive a percentage of ten times the basic policy value.

If nothing happens to you, your child will still receive the value of the policy along with attractive annual bonuses. So, the maturity value will be a significant one.

Additional Medical Benefits

There is a comprehensive optional medical cover on offer for you and your child at a very low premium. This will cover hospitalisation, 36 critical illnesses and 526 types of surgical operations.
